Medical Treatment in Switzerland
SWIXMED SERVICE EXCELLENCE

Your Health
Is Our Concern

SWIXMED arranges medical treatment in Switzerland for international patients. It is recognized as the leading center of excellence for all aspects of the care of international patients in Switzerland.
Your Questions
Are you considering medical treatment in Switzerland? You may have questions such as:

- Which is the most suitable hospital?
- Who are the experts in my condition?
- How will I communicate with the hospital staff?
- When can I start the treatment?
- How long will it take?
- How much will my stay in Switzerland cost?

SWIXMED staff are specialized in answering these questions for you. Whatever your question, we will be delighted to help you.

Our Offer
SWIXMED is an independent Swiss company which arranges medical treatment for international patients in Swiss hospitals and rehabilitation facilities. We can organize specialist treatment in all medical fields, arrange for rehabilitation, obtain remote second opinions and organize medical checkups. Our aim is for you to be free to concentrate on your recovery and not have to worry about anything else. We accompany you on every step of your way and provide valuable local support, giving you a competent and trustworthy partner.

Tailored Healthcare Solutions
SWIXMED has a proven track record in delivering individually tailored healthcare solutions that fully meet patients’ needs. We provide the essential local knowledge that international patients need, sourcing the most suitable hospital and doctor for each case.

Healthcare In Switzerland
Switzerland is known worldwide for the exceptional quality of its medical care and its excellent medical facilities. As there are no waiting lists, patients have immediate access to its services.
Treatment And Rehabilitation In Switzerland

Simply contact us and we will be there for you every step of your way, providing you with immediate access to the entire Swiss Healthcare System. We take care of all arrangements and provide full patient support.

Each diagnosis requires uniquely tailored treatment. The process to arrange your medical treatment or rehabilitation in Switzerland is as follows:
1. Contact, Application & Reports
You or your representative contacts us, completes an application form and sends your medical reports if available, including details of any diagnoses already made. The documents must be as complete as possible.

2. Case Analysis
We consult on each case with our in-house medical board. We will then contact the appropriate medical specialists at the hospital or rehabilitation facility best suited to you.

3. Preliminary Treatment Plan & Cost Estimate
Based on the case analysis, we forward you a preliminary treatment plan and cost estimate.

4. Deposit Payment
Upon agreement on the suggested treatment and cost estimate, the requested deposit is payable.

5. Preparation Of Journey & Medical Treatment
We organize all medical appointments. If requested, we assist in organizing your visa, any translation required, and accommodation for you and your family.

6. Treatment In Switzerland
Welcome to Switzerland. You receive medical treatment in a Swiss hospital or rehabilitation facility. We provide customer support on site through our Guest Relations Department.

7. Completion Of Treatment
Once your medical treatment is completed, you receive all medical reports and the final cost summary (with all original invoices). If necessary, we organize a smooth transition home from the hospital. Any outstanding balances are paid or received.
Remote Second Opinion

We can provide you with a second opinion on your condition from a renowned medical specialist, without you leaving home. With a second opinion from an independent healthcare professional, you can gain a greater understanding of your condition and the various treatment options available. The process for patients seeking a remote second opinion is as follows:
1. Contact, Application & Reports
You or your representative contacts us, completes an application form and sends your medical reports if available, including details of any diagnoses already made. The documents must be as complete as possible.

2. Case Analysis
We consult on each case with our in-house medical board. We will then contact the appropriate medical specialist who is best suited to provide your remote second opinion.

3. Cost Estimate
After consulting with the medical specialist, we forward you a cost estimate for your remote second opinion.

4. Deposit Payment
Upon agreement on the cost estimate, the requested deposit is payable.

5. Remote Second Opinion
The medical specialist provides a detailed remote second opinion report including an evaluation and possible treatment suggestions.
SWIXMED is an independent Swiss company that has been working in the field of international patients since the beginning in 2004. The head office is in Zurich, Switzerland and representative offices are in Jeddah, Saudi Arabia and Moscow, Russia.

Barbara Zumbühl, Head of Guest Relations, SWIXMED
Our Experience
Since its inception, SWIXMED has cared for patients from over 30 nations and referred them to over 40 public and private Swiss hospitals. Languages spoken at SWIXMED include Arabic, English, Finnish, French, German, Hungarian, Italian, Russian, Spanish and Swedish. We have an in-depth knowledge of the Swiss healthcare system and a unique network of healthcare providers.

Customer Service
At SWIXMED, our clients come first. Whatever your request, we will always try to exceed your expectations. As an independent company, we are obliged only to our clients and not to a particular hospital. One thing is certain: You can rely on us.

We know that discretion is at the heart of our business. Your data is protected in accordance with Swiss legal requirements.

Medical Fields
We arrange treatment in all medical fields, for example:
- Cardiology
- Gastroenterology
- Men’s Health
- Women’s Health
- Neurology
- Oncology
- Orthopedics
- Pediatrics
- Plastic Surgery

Welcome To Switzerland
It is not just the exceptional medical services that make Switzerland a fascinating destination. Switzerland’s central location in the heart of Europe, political stability, superior tourist infrastructure and wonderful scenery present the perfect environment for rest, relaxation and recovery. Welcome to Switzerland!
The Swiss Healthcare System

Switzerland provides one of the best healthcare systems. The advantages of the Swiss health system undoubtedly stem from the highly qualified doctors and nursing staff, excellent medical care and the modern, well-equipped and accessible high-tech hospitals.

Characterised by liberalism and federalism, Switzerland has an extremely well developed healthcare system... There is a mantra in Swiss healthcare politics, a phrase one hears again and again: healthcare in Switzerland is of excellent quality...

www.civitas.org.uk

A broad network of hospitals and well-known public and private hospitals and clinics are elements of the high quality Swiss healthcare system that ensures a complete coverage of medical services around the country.

Worldwide Reputation
Switzerland has a reputation throughout the world for its high standard of medical care. The work of Swiss hospitals and healthcare professionals is based on strong core values: Medical and academic excellence, competent and comprehensive care, modern infrastructure and organizational efficiency. Swiss cultural traditions also have a strong positive influence: Precision, reliability, willingness to serve and discretion all combine to make Swiss hospitals world-class health providers.

International Breakthroughs
Switzerland has a strong research and technology base, which has been responsible for many international breakthroughs – particularly in the fields of medicine, pharmaceuticals and biotechnology.

Wide Choice Of Healthcare Providers
As you can see from the map above, Switzerland has a very high density of hospitals, clinics and rehabilitation centers. The larger hospital (H) signs signify a wide choice of clinics in the region.

Costs
Medical treatment in Switzerland requires either international private health insurance covering treatment carried out abroad, state coverage, or the ability to finance the treatment costs yourself.
Hospitals And Rehabilitation Facilities

The hospitals and rehabilitation facilities described in the following pages are a representative selection of first-class Swiss service providers. They are all centers of excellence and have extensive experience in caring for international patients and guests. We will gladly arrange contact with all hospitals which meet your needs.
University Children’s Hospital Zurich

The University Children’s Hospital Zurich, Switzerland, a tertiary referral center, was founded in 1874 and is one of the oldest and most renowned pediatric medical institutions worldwide, offering truly comprehensive diagnosis, therapy, and long term rehabilitation for all forms of illness, malformation, or trauma in children. We care for children of all ages, ranging from extremely premature babies through to adolescents. Highly experienced professionals deliver gold-standard evidence-based care throughout hospitalization and beyond. The (often interdisciplinary) medical teams are composed in accordance with the specific needs of your child, and they are always led by the consultant physician best suited to help your child. This doctor personally cares for your son or daughter on a continuous daily basis; she or he is fully responsible for all action taken and is your primary contact person for general information, daily updates, etc. Most of our staff members are fluent in English.

Importantly, rooming in is a standard option and reflects our family-centered approach. Alternatively, parents may rent a room or apartment in one of our hospital-operated parent houses or check in to one of the nearby hotels.

The following listing gives an overview of all departments, divisions, and centers in the hospital:

Department of Surgery (Director: Prof. M. Meuli, MD)
- Divisions of visceral and thoracic surgery including neonatal surgery, traumatology and orthopedics, urology, neurosurgery, hand surgery, ENT, cardiovascular surgery. Pediatric Burn Center including plastic, reconstructive and aesthetic surgery. Maxillofacial and cleft surgery, eye surgery.

Department of Pediatrics (Director: Prof. F.H. Sennhauser, MD)
- Divisions of general pediatrics, allergology, cardiology, diabetology/endocrinology, gastroenterology and nutrition, hematology, immunology and bone marrow transplantation, infectious diseases, metabolism and molecular diseases, nephrology, neurology, oncology, pulmonology, psychiatry, rheumatology. Interdisciplinary Intensive Care Unit including neonatology, division of anesthesia and pain management, division of diagnostic imaging/radiology, Rehabilitation Center in Affoltern with 60 beds (25 km outside Zurich).

The city of Zurich
Zurich has repeatedly been rated one of the world’s most attractive cities: It is safe, clean, and wealthy. It offers excellent shopping and business facilities and hosts a wide range of cultural events to which the famous Zurich Opera and the equally renowned Tonhalle Orchestra are industrious contributors. Surrounded by rolling hills, it is situated in a beautiful landscape at the edge of Lake Zurich. Most of Switzerland’s many attractive sightseeing spots can be reached by train or car within one to two hours.
University Hospital Zurich

With its 42 departments and institutes, the University Hospital Zurich is renowned for its achievements in healthcare, research and teaching, as well as for compassionate care. It offers state-of-the-art treatment for a broad range of illnesses, provided by a dedicated team of leading consultants of the highest international standing. The University Hospital Zurich is one of the largest and most important teaching hospitals in Europe.

The hospital’s technological and laboratory infrastructure represents the most advanced level of sophistication and is supported by a dedicated and skilled staff. Many of today’s most progressive diagnostic and therapeutic techniques being used worldwide have been developed at University Hospital Zurich.

The University Hospital Zurich includes many different departments and divisions:

- The Division of Cardiology provides the widest range of treatment of heart and cardiovascular diseases and is internationally known for its research on atherosclerosis, angina pectoris and myocardial infarction. A historical milestone for the division took place in 1977 when Andreas Grüntzig performed the world’s first balloon dilatation procedure.

- The Department of Dermatology is internationally renowned in the field of treatment for skin cancer, allergic and immunologic skin diseases and chronic wounds.

- The Division of Gynecology provides advanced diagnostics and treatment procedures and is one of the leading centers in Europe in senology and gynecologic oncology.

- The Department of Neuro-Surgery, founded in 1937 by Professor Krayenbühl, was the first of its kind in Switzerland and gained world fame under Prof. Yasargil. It treats patients suffering from brain illnesses such as brain tumors or cerebral vessel malformations. Specialist treatments for bleeding, perfusion problems and apraxia are also performed here.

- Reconstructive surgery is surgery performed to correct or repair body structures for functional or aesthetic/cosmetic reasons. The main fields of the Division of Plastic, Reconstructive and Aesthetic Surgery include plastic surgery, hand surgery and burn surgery. The combination of highly qualified, experienced and competent teams of surgeons, a modern infrastructure and the close proximity to science and research enable the division to provide the highest quality medicine.

Working together closely, specialists from several divisions take an interdisciplinary approach and can therefore leverage an enormous pool of expertise and collective experience. Each division provides leading-edge medical services, where teams of doctors, nurses, specialist medical technologists, physiotherapists and other specialists are at the patient’s disposal around the clock, 365 days per year.

The University Hospital Zurich is located in the heart of the city and is close to Switzerland’s main international airport.
The St. Gallen Cantonal Hospital
Department of Surgery, St. Gallen Cantonal Hospital
With 160 surgical beds, the surgical clinic at the St. Gallen Cantonal Hospital is one of the largest surgical clinics in Switzerland. Situated in the middle of the idyllic town of St. Gallen, surrounded by mountains and lakes, we offer the full spectrum of visceral surgery.

As a highly specialized surgical clinic we have particular expertise in:
- Oncological surgery
- Obesity surgery
- Endocrine surgery

Oncological surgery
Our clinic enjoys an excellent reputation in the field of oncological surgery. We have concentrated in particular on advanced tumors of the gastro-intestinal tract and liver. For instance, we perform radical tumor debulking for locally metastasized colorectal cancer as well as for pseudomyxoma peritonei with intraoperative chemotherapy.

Obesity surgery
In our interdisciplinary adiposis center with its diabetologist, psychologists, nutritionists and surgeons we have specialized in the operative and conservative treatment of morbid obesity. Thus nearly 200 laparoscopic bypass operations are carried out annually for weight reduction.

Endocrine surgery
Endocrine surgery embraces thyroid and parathyroid operations as well as adrenal gland surgery. In recent years, with the number of patient referrals, our clinic has developed into the most significant clinic in Switzerland in this field. The active involvement of our physicians in national and international endocrine surgery associations guarantees that the surgery in our hospital is in line with the latest scientific knowledge and technological developments.

We place great value on highly qualified staff, a high medical standard and personal care. In St. Gallen our patients expect modern, top-level medicine of international standard. Highly qualified doctors as well as our friendly and well-trained specialist nursing staff are there for our patients around-the-clock.

In treating our patients we work in close contact with the other 33 clinics and institutes of the St. Gallen Cantonal Hospital. This interdisciplinary approach guarantees an optimal consultation, diagnosis and therapy. As a patient you benefit from this combination of competencies and furthermore, will spare yourself unnecessarily long waiting times. The personal atmosphere, the pleasant surroundings, the appropriate and high quality cuisine and the numerous further amenities are very much appreciated by our patients.
Kantonsspital Graubünden – Central Hospital Of Southeast Switzerland

Kantonsspital Graubünden is located in Chur, the oldest Swiss city, at the center of the tourist region of Graubünden, which is home to world-famous tourist resorts such as St. Moritz, Davos, Arosa, Lenzerheide and Flims/Laax. The proximity of Kantonsspital Graubünden to the tourist centers facilitates numerous forms of cooperation and arrangements with renowned luxury hotels.

Excellent medical and nursing care as well as the unique mountain panorama have given the Kantonsspital Graubünden an outstanding reputation. The physicians and nursing staff of Kantonsspital Graubünden are highly committed, using their specialist expertise to ensure the well-being of all patients.

As a state-of-the-art central hospital, Kantonsspital Graubünden offers a wide range of medical services and treatment. The hospital specializes in the following fields:
- Orthopedics (hip and knee prostheses)
- Hand surgery
- Ophthalmology
- Pediatric and adolescent medicine

There are eight hospital departments:
- Institutes
- Surgery
- Internal Medicine
- Anesthesia, Emergency, Intensive Care, Rescue
- Pediatric and Adolescent Medicine
- Obstetrics and Gynecology
- Nursing and Specialist Support
- Services

Kantonsspital Graubünden has implemented a quality management system. The quality standard is a commitment to service anchored in the hospital’s strategy. Our quality is an expression of our patient focus and forms the standard directly applied to our daily work. The documentation of customer satisfaction, compliance with statutory requirements and fulfillment of stakeholder expectations is carried out systematically. The quality of our work must be visibly and continuously improved.

High-quality performance of services and patient safety are our most important goals. As a central general hospital, Kantonsspital Graubünden provides its patients with high-quality services in specialist and primary care, and carries out centralized and network functions in organizational and scientific areas. Kantonsspital Graubünden considers ethics to be a primary element of treatment and nursing care quality.

Patients at Kantonsspital Graubünden experience a sense of well-being because they know that they are viewed as individuals, taken seriously and treated with expertise. Their family members also see us as a trustworthy partner whose top priorities are the health and well-being of the patients.
The Bellikon Rehabilitation Clinic is located 600 meters above sea level, in a prime location within the catchment area of the city of Zurich and surrounded by a magnificent view of the Reuss Valley and the mountains.

As a renowned specialist clinic for acute trauma rehabilitation, work reintegration and medical expert opinions, our highly qualified teams treat our patients after serious accidents or illnesses on an inpatient or outpatient basis. Our state-of-the-art infrastructure, which includes an intermediate care unit and special rooms, enables us to offer patients with burn injuries or amputations top-quality, comprehensive rehabilitation at the highest level, 24 hours a day. Our clearly defined rehabilitation goals combined with optimally coordinated, intensive treatments by interdisciplinary teams produce the best possible results.

It is important to us that our patients not only receive first-class medical treatment; they should also experience a sense of well-being as guests in our clinic, underpinned by the pleasant ambience and superb comfort of the rooms, the attentive hospitality services and the fine cuisine. The clinic has 205 beds in comfortable single and double rooms. In addition to patients with statutory and private insurance, our satisfied guests include discerning clients from abroad.

The Bellikon Rehabilitation Clinic is one of the leading rehabilitation clinics in Switzerland and is the first choice for trauma rehabilitation.

Memberships:
Swiss Association of Rehabilitation Clinics
H+ – Swiss Hospital Association
VAKA – Aargau hospitals, clinics and nursing care institutions

Bellikon Rehabilitation Clinic – Number One For Trauma Rehabilitation
**Hirslanden Group Of Private Hospitals**

Leading private clinics – innovative and exclusive

The Hirslanden Private Group of Hospitals comprises 13 leading clinics providing topflight medicine. Services offered by the clinics span some 25 specialist disciplines including orthopedics, cardiology, heart surgery, oncology and neurosurgery.

Hirslanden Clinics set new standards in many medical fields. The use of innovative surgical techniques and aids allows hospitalization time to be reduced to a minimum. A particular emphasis is placed on providing a pleasant, safe, discreet and private atmosphere with a sophisticated ambience. The standard of hotel services at Hirslanden clinics is among the best in Switzerland, and provides the perfect setting for patients’ well-being.

Internationally renowned cardiologists and heart surgeons

Experienced cardiologists and heart surgeons of national and international renown conduct all the diagnostic investigations and therapies at the Hirslanden Heart Centre in Zurich. They are specialists in their respective fields, whether medicinal treatment for the dilation of the coronary arteries, the implantation of vascular prostheses, bypass surgery for the prevention or treatment of a heart attack, or the surgical reconstruction and implantation of heart valves. Every year over 2,000 diagnostic heart catheter investigations and almost 800 open-heart operations are carried out at the Hirslanden Heart Centre in Zurich alone.

Orthopedics on the move

Orthopedics is another field that has seen unprecedented advances in recent years. Ground-breaking new technologies have simplified the diagnosis and treatment of disorders and injuries of the locomotor apparatus. Seeking to harness this potential, Hirslanden has established a unique center of expertise for orthopedic surgery. A team of 16 surgical experts treats all disorders of the shoulder, elbow and hand, hip, knee and foot as well as the entire spinal column. The concentration of such a wealth of medical expertise and resources under a single roof opens up new horizons for the provision of comprehensive patient care.

In Switzerland, quality in health care has a name.
The Swiss Leading Hospitals

Founded in 1999, the Association of Swiss Leading Hospitals (SLH) has over recent years established itself as an important pillar in the Swiss hospital landscape. It currently has 18 member hospitals in Switzerland, catering for all medical sectors.

SLH is the only independent group of hospitals whose services are available nationwide and due to their local presence, member hospitals can very much focus on the immediate market needs. Their management style is friendly and relaxed and not aimed solely at maximising profit. SLH member hospitals must be privately owned, financially sound and independent. Swiss Leading Hospitals strictly refuses membership to large groups with holding structures and speculative foreign investors.

With its consistent quality management, SLH can comfortably refute the common allegation that private hospitals are an expensive luxury. Greater patient satisfaction, shorter stays in hospital, higher bed occupancy rates, and therefore also lower costs than the national Swiss average, are the results.

Individuals and their well-being are clearly at the forefront in all SLH member hospitals, and doctors and nursing staff can be shown to spend more time with each individual patient. The central focus for the SLH concept lies in attaining the optimum synergy between delivering the highest possible medical care, excellent infrastructure and the very best standards of patient-oriented personal care. Thanks to consistent quality management, SLH today represents a byword for the highest possible quality, individual patient care and a relaxing and caring environment.

The first foreign “Accredited Member”, The JSC Medicina Hospital in Moscow, was accepted in 2007. It is hoped that by 2012, a further 15 hospitals worldwide will join the association. For reasons of exclusivity, the number of member hospitals in Switzerland will be restricted to a maximum of 25.

Members:
- Bethesda-Spital, Basel
- Clinique de la Source, Lausanne

- Privatklinik Meiringen, Meiringen
- Privatklinik Wyss, Münchenbuchsee
- RehaClinic, Baden
- RehaClinic, Zurzach

- Accredited Member: JSC Medicina Clinic, Moscow
Privatklinik Meiringen

The Privatklinik Meiringen is situated in the well-known tourist region of the Hasli Valley in the Bernese Oberland. Thanks to its central location in the heart of Switzerland, midway between Lucerne and Interlaken, the clinic is easy to reach. The Hasli Valley is known for its natural beauty and is synonymous with mountains, water and impressive natural features. The picturesque mountain landscape all around the Privatklinik Meiringen offers fascinating views in every season.

The main building of the clinic, the “Des Alpes”, was originally built in the 18th century as a hotel, but for 90 years now its hospitality has been extended to patients rather than hotel guests. Despite this, the special hotel atmosphere is still as tangible as ever. The Privatklinik Meiringen sets high standards for the range and quality of its services. Stylish furnishings and fittings, along with sophisticated hotel standards are a matter of course. As a member of “The Swiss Leading Hospitals”, with their strict quality standards, superior quality and privacy are guaranteed in every respect.

The success of this center for mental well-being stems from excellent medical attention, comprehensive nursing care, professional therapy programs and heartfelt hospitality.

The Privatklinik Meiringen offers individually designed programs for a host of disorders, based on state-of-the-art medical and psychiatric research. Psychotherapy is a particular strength of this clinic, but more recent biological treatment approaches are also among the range of options used. The interdisciplinary services include medical and nursing care as well as a variety of different therapy options, which are carried out and constantly refined by qualified professionals. The clinic has an international reputation for its treatment of depressive disorders, in particular for its fatigue syndrome/burnout and addictions. The “Prometa Protocol” offered by the Privatklinik Meiringen is an innovative, medically-based treatment for alcohol, cocaine or methamphetamine dependence.

“Where patients are also guests”

This is the standard the Privatklinik Meiringen sets for itself. Based on the principle that “all human beings deserve courtesy and respect for their dignity”, patients at the clinic invariably feel at ease, and find time for rest and recovery. A thermal pool, fitness facilities, and a tennis court are there for the use of the patients. In addition, a varied program of activities is offered, including hiking, sports and cultural events, and a well-known ski area is nearby.
The Pyramid Clinic

The Pyramid Clinic is a leading private clinic specializing in selected surgical fields with approximately 100 staff and the same number of accredited specialists. The Pyramid Clinic is known for its top level medical services, maximum discretion and individual care as well as the first-class, personal ambience. The clinic lies directly on the shore of Lake Zurich and only a few minutes from Zurich city center. Founded in 1993, the clinic owes its name to the unique shape of its building and is today regarded as a pioneer in matters of private medicine.

The formula for success at the Pyramid Clinic is based on a clear focus on selected areas of surgical specialty. This specialization allows us to work together with the most renowned doctors in their field and to form an unparalleled body of expertise that works to the benefit of the clinic’s patients. Your free choice of doctor, the ready availability and accessibility of the specialists treating you as well as the presence of a doctor around-the-clock are further examples of the Pyramid Clinic’s advantages. With an overall capacity of six operating theatres, 40 beds and a day clinic, an average of 3,000 operations are carried out each year. The clinic’s motto is “small and select”.

At the Pyramid Clinic you do not find a typical hospital atmosphere but an infrastructure similar to that of a hotel, as well as excellent cuisine. The patient is at the center of everything we do. Carefully tailored nursing, and personal care from the doctor and nurse appointed to you, go without saying. In the patient satisfaction surveys of the SWISS LEADING HOSPITALS the clinic receives the best marks time and time again. In 2001 the Pyramid was the first and, so far, the only clinic to be given the Esprix Award, the Swiss prize for business excellence, for its professional and unique quality management.

Range of treatments:
- Plastic, reconstructive and aesthetic surgery
- Breast cancer surgery
- Vein surgery
- Articular and sport surgery including joint replacements
- Jaw and facial surgery
- Hand and foot surgery
- Eye surgery
- Visceral surgery
- Ear, nose and throat surgery
- Checkups
EXCELLENT SWISS CLINICS

University Hospital Basel

The University Hospital Basel is one of the largest medical centers in Switzerland and is internationally recognised as being of the highest standard. 700 medical practitioners and 1,500 nursing staff provide for patients’ welfare, safety and speedy recovery on the basis of the latest scientific findings. The close collaboration with the oldest university in Switzerland and the world-leading life-science corporations in Basel guarantees the highest quality treatment concepts and innovation in all medical fields. Whether in patient care, medical education or research, great emphasis is placed upon interdisciplinary collaboration between all the specialists involved. The University Hospital offers the latest and best methods of treatment for patients suffering from a wide range of illnesses and injuries. The more serious and complicated these are, the more patients benefit from the competence and commitment of specialists in all fields of medicine at university standard, guaranteed 24 hours a day, seven days a week and 365 days a year.

The University Hospital with its 52 entities offers a large number of important medical services, in particular those requiring permanent and interdisciplinary cooperation. Therefore, the hospital draws patients from all over the world. Many have complex medical conditions or have found their treatment is not producing the expected results. Others are seeking a definitive second opinion. Patients with a wide variety of diagnoses are treated every year. The University Hospital Basel includes the following internationally outstanding centers of excellence:

• The oncological department offers all surgical and non-surgical oncological subspecialties, in particular for breast cancer, head and neck tumours, lung cancer, gastrointestinal cancers, Hodgkins and non-Hodgkins lymphoma.

• The Heart Centre combines cardiology, cardiothoracic and vascular surgery. All modern cardiac surgery procedures are offered including pediatrics, off-pump surgery and aortic surgery, and the heart failure program represents the latest in scientifically based cardiac care.

• Orthopedic and traumatologic surgery are provided with joint reconstruction for complex post-traumatic and degenerative disorders of the shoulder, elbow, hip, knee and ankle, reconstructive surgery of post-traumatic deformities, instabilities and non-unions of the upper and lower extremities, and advanced techniques in both spine surgery and foot and ankle surgery.

• The ENT Clinic has a skilled team and the latest technical and surgical facilities for improving or restoring patients’ hearing by operative methods and for treating diseases of the paranasal sinuses. They offer specialized audiological diagnosis, fitting of cochlear implants even in babies, diagnosis of inflammatory sinus diseases and endoscopic operations on the paranasal sinuses.

• The Eye Clinic provides outstanding treatments of glaucoma patients and surgical expertise, i.e. retinal and macular surgery, cataract surgery, combined procedures and oculoplastic and lacrimal surgery.

In each and every medical discipline practised at the University Hospital Basel the treatment methods are state-of-the-art. The clinical conceptual approach is foremost – to provide medical excellence for each and every patient and encourage them to live a healthier and happier life.
University Hospital Balgrist
Located in Zurich, Switzerland, Balgrist University Hospital is committed to excellence in all areas of musculoskeletal care.

Orthopedics
Christian Gerber, MD, Professor and Chairman of the Department of Orthopedics, University of Zurich, engages the expertise of an experienced team of specialists combining orthopedic and surgical excellence based on the latest scientific knowledge. As an academic group, cutting edge techniques, technology and facilities are available.

Areas of subspecialty include: Upper extremities, lower extremities, hip, spine, bone tumor, pediatric orthopedics and technical orthopedics.

Physical medicine and rheumatology
Diagnostic evaluations and treatment cover all non-surgical aspects of diseases of the musculoskeletal system whether inflammatory, degenerative or soft tissue rheumatic conditions. The center engages in close interdisciplinary exchange with other departments, including a well-equipped department of physiotherapy.

Spinal Cord Injury Center
The center’s aim is to enable people with spinal cord injuries to live an active and full life. The treatment program takes their habitual surroundings, family, workplace and lifestyle into consideration. The combined specialist knowledge of the different disciplines and the coordinated use of various treatment methods ensure a professional and personal commitment to care and support. Patients’ hopes for a cure for spinal cord injuries commit the center to actively engage in worldwide regeneration research.

SANITAS Hospital And Health Center, Kilchberg
The SANITAS Hospital and Health Center has been in existence for over a century and is now a private hospital offering patients free choice of physicians in Canton Zurich. The hospital is situated in an idyllic countryside location and near a lake, yet very close to the city – an ideal place for your treatment and subsequent recuperation.

With its up-to-date equipment and infrastructure, the hospital offers a broad range of in- and outpatient treatment. SANITAS specializes in joint replacement surgery. The other major specialisms include orthopedics, urology, obstetrics and gynecology, general, visceral and vascular surgery as well as internal medicine. The radiography department is equipped with state-of-the-art machinery such as 3 tesla MRI units and a 64-line computer tomograph.

The well-being of each patient is a top priority for the SANITAS Hospital and Health Center. Its personalized nursing care system enables the hospital to provide very individualized nursing care: Each patient is given a nursing specialist who is responsible for their continuous care. The basis for this is the development of an intensive mutual relationship by means of direct communication and a maximum of personally performed nursing care tasks.

At SANITAS, surgical treatment can be uniquely combined with recovery: Rehabilitation, physiotherapy, medical training therapy and the walking bath are all located under one roof. The hospital also offers quiet, comfortable hotel rooms with a view of the countryside for persons escorting the patient.
EXCELLENT SWISS CLINICS

The Schulthess Clinic, Zurich
The Schulthess Clinic is one of the leading orthopedic hospitals in Europe. Its central mission is to free people from pain and restore their mobility. As a top orthopedic hospital, it specializes in the sophisticated treatment of the musculoskeletal system for patients with joint, back, hand, foot and ankle disorders. Through expert consultation in the hospital’s pain center and treatments based on conservative medicine, alternatives to surgical interventions can often be found.

The Schulthess Clinic is ideally equipped to treat patients from outside Switzerland. It can be reached in just 30 minutes from Zurich Airport. In cases where patients prefer to be treated in their own country, a specialist team can be dispatched for on-site treatment.

The Schulthess Clinic has a proven track record. Its vast experience and high caseload of over 13,000 surgical interventions a year and 40 operations a day testify to its high level of effectiveness. A team-based system facilitates an interdisciplinary approach, with pre- and post-operative treatment occurring in close consultation with affiliated external partners.

“We keep people moving” is the express mission of the hospital, and this includes: Avoiding complications, short rehabilitation times, integrated quality assurance, controlling and treating pain, and integrated, conservative treatment as an alternative.

The Schulthess Clinic is also home to the Swiss Olympic Medical Center; the FIFA Medical Assessment and Research Center of the International Football Federation, FIFA; and the FIFA Medical Center.

Medical Health Centre, Bad Ragaz
This Medical Centre enjoys an international reputation. In addition to therapy and rehabilitation work, its staff of around 20 doctors and 30 therapists are increasingly employing their expertise in preventive and regenerative measures. The importance placed on holistic healthcare practices that enhance patient quality of life is evident in the day-to-day work of the Medical Health Centre Bad Ragaz. With its health and fitness checkups in the Swiss Olympic Medical Centre and therapeutic medical training, it is also moving with the times. Some of the new services available include clinical gait analysis, psychological coaching, weight management, medical cosmetic and laser treatments and aesthetic plastic surgery.

The Medical Health Centre is directly adjacent to the Grand Resort Bad Ragaz, giving patients the option of exclusive accommodation in the Grand Hotel Quellenhof or the Grand Hotel Hof Ragaz while benefiting from discrete 24-hour medical care.

In line with its commitment to provide state-of-the-art rehabilitation, the Medical Health Centre has superb facilities to cater for all needs:
- Assessment on admission and ongoing progress reports
- Individually tailored programs under specialist medical supervision
- Medical training therapy (indoor and outdoor)
- Physiotherapy, including water therapy in thermal bath
- Psychological assessments and therapy
- Patient training and personal consultation
- Nutritional advice
- Medical massage
- Extended laboratory analysis
Valens Clinic Rehabilitation Centre
High above Bad Ragaz and the Tamina Gorge on a green, sun-drenched terrace some 915 meters above sea level lies the mountain village of Valens. This is the location of a modern Rehabilitation Centre that owes its healing powers to the professional excellence of its clinic team. The Valens Clinic is a specialist clinic for rheumatic disorders and a world-class center for neuro-rehabilitation.

A highly qualified team of doctors, nurses and therapists develops an individually tailored treatment program for each patient after a thorough diagnostic process conducted in close consultation. A great deal of emphasis is placed on interdisciplinary collaboration and the holistic use of medical, social, educational and technical advances. This gives patients at the Valens Clinic the opportunity to benefit from an extremely broad range of diagnostic and therapeutic services.

The aim of any rehabilitation stay at the Valens Clinic is to return patients to the best possible level of self-sufficiency and restore their normal quality of life.

The sunny location of this 126-bed clinic, the unique landscape and the comfort of the rooms all contribute to the healing process.

The clinic also operates an excellent hotel residence. Spa guests, patients, their relatives and accompanying friends all appreciate its comfortably furnished rooms and proximity to the clinic.

Clinics For Sleep Medicine, Zurzach And Lucerne
Diagnosis, treatment and prevention of sleep disorders
Located in Zurzach and Lucerne, the Clinics for Sleep Medicine have specialized in identifying and treating sleep disorders for over 12 years. With more than 2,000 new patients every year, they are the largest sleep clinics in Switzerland. The Zurzach and Lucerne Clinics for Sleep Medicine are Sleep Centers certified by the SGSSC (the Swiss Society of Sleep Research, Sleep Medicine and Chronobiology).

The close collaboration of a team of trained sleep therapists from different backgrounds (internal medicine, pneumology, neurology, endocrinology, psychiatry and psychology) facilitates the correct diagnosis of the sleep disorder and the best possible treatment. This ensures that every patient receives an individualized therapy program for long-lasting solutions to their sleep problems and is the basis for the clinics’ high success rate. Zurzach and Lucerne have sleep laboratories to analyze sleep patterns. Both laboratories operate around-the-clock.

For patients with severe sleep disorders which cannot be treated on an outpatient basis or who require special observation and support for diagnosis or treatment, the Zurzach facility has Switzerland’s only inpatient sleep disorder department.

The Clinics for Sleep Medicine focus primarily on the treatment of sleep disorders but are also active in the fields of prevention (Sleep School), education and counseling (shiftwork, jetlag) and clinical research (developing new forms of therapies for sleep disorders).
Sanatorium Kilchberg
Sanatorium Kilchberg is a psychiatric clinic with a long tradition dating back to 1867. Located 100m above the Lake of Zurich with a wonderful view of the city, the lake, and the Alps, this sanatorium is set in its own large park on the outskirts of Zurich and is easy to reach by public transport.

The clinic is ideally situated for patients from abroad, as it is located only about half an hour from the airport. The very latest in psychiatric treatment is provided. The clinic specializes in treating depression and manic-depressive illnesses, anxiety, obsessive-compulsive disorders and eating disorders.

Working on the basis of individual treatment programs, all modern psychiatric treatment options are available: Psychotherapy based on cognitive behavioral therapy, as well as biological therapies. The clinic has special expertise in the psycho-pharmacological treatment of psychiatric disorders. The sanatorium’s psychological services offer therapies based on the very latest psychotherapy research findings.

A motivated team looks after patients from all over the world in private wards. Special priority is given to the accommodation and catering facilities. The light, spacious rooms are all equipped with a mini fridge and safe. Sanatorium Kilchberg’s professional care teams offer successful treatments in an exceptional environment.

Alpine Children’s Hospital Davos
The Alpine Children’s Hospital Davos (AKD) specializes in children, adolescents and young adults. It is the leading European hospital for obesity treatment and rehabilitation in pulmonary diseases, especially cystic fibrosis and asthma.

Patients are treated in a comfortable setting through an attractive program with achievable steps. The medical success is based on an interdisciplinary approach involving conventional pediatric medicine, sport medicine and sport therapy, medical care, physiotherapy, riding therapy, nutrition counseling, psychology, socio-pedagogy, school and kindergarten as well as compliance training. Education of the patients and their parents is another important factor. Much work is put into planning for and monitoring each patient’s post-hospitalization program including the identification of a team of health professionals located close to the patient’s home. This is carried out in coordination with the referring health professional.

The quality of the medical treatment and rehabilitation program is continuously evaluated and improved by the AKD scientific department.

The hospital is situated in the overwhelming scenic beauty of the Swiss mountains. Davos is recognized worldwide as the host of the World Economic Forum, WEF.
Double Check

Health is everyone’s most important asset, regardless of age, nationality, or status. Double Check is a new kind of medical center for individuals and families wanting more convenience and efficiency than a hospital, and more peace of mind than a single private doctor or clinic can provide.

Double Check is affiliated to the University Hospital Zurich and was founded by more than twenty of its most renowned professors. Our people have a clear vision of healthcare focused on: Convenience, individually tailored diagnostics, prevention, and recovery, combined with the experience and global network of one of the world’s leading hospitals.

Most Double Check clients come to us for one of two reasons:

1. Checkups: Get a complete health check in just one day. Checkups include state-of-the-art diagnostic technology, in-depth consultation with our resident MD, and appraisal of important results by University Hospital Zurich professors or their specialized worldwide colleagues.

2. Second opinions: If you are unsure about a diagnosis or treatment received elsewhere, Double Check can provide a second opinion – either discreetly based on your own information, or in collaboration with your physician.
Accommodation

The following exclusive Swiss hotels offer luxury rooms, great service and delicious cuisine. We can advise on the best hotels for accompanying relatives and friends, conveniently located close to your choice of hospital.
**Hotel Ambassador, Zurich**

The Swiss Quality Boutique Hotel Ambassador is exclusively located in the center of the small, attractive and cosmopolitan city of Zurich. The hotel is a distinctive feature of the cityscape. The famous Opera House is right next door and the nearby lake promenade is ideal for relaxation or a gentle stroll. Only five minutes’ walk away is the allure of the world-famous Bahnhofstrasse – the finest and most exclusive shopping street in Zurich. On the way there, the historic town, with its many visitor attractions, and the financial and business center offer fascinating contrasts.

This exciting and exquisite mix of culture, business and entertainment surrounding the hotel is also reflected in the architecture, hospitality and services of the Ambassador.

The stylish exterior and elegance of the rooms create a special, feel-good ambience, along with the surreal baroque style interior of the restaurant.

The 45 rooms were designed by the famous interior designer Roland Schön and have all the amenities of a four-star city hotel. This includes the most comfortable beds in the city, with electronically adjustable, luxury mattresses, a flat-screen television with video and internet on demand, broadband internet access and individually adjustable air-conditioning. These are only some of the benefits of this charming establishment, which is equally popular with national and international guests for its ideal location and loyal staff of many years’ standing.

**Park Hyatt, Zurich**

Park Hyatt Zurich is a contemporary five-star hotel, located in the city’s financial and commercial district and yet just steps away from the fashionable Bahnhofstrasse shopping street, the Lake of Zurich, the Zurich Congress Center and the Old Town. The elegant glass facade discreetly conceals what awaits you inside: A luxurious ambience, spacious rooms, avant-garde architecture and contemporary art.

The 142 rooms and suites with areas of at least 36 and 72 square meters respectively offer luxurious comfort and uncompromised functionality. This includes wireless internet connection and state-of-the-art Bang & Olufsen flat-screen televisions. Ceiling-height windows, earthy colors, finest materials and spacious bathrooms with deep soaking bathtubs and rain showers provide a unique hotel experience. For ultimate relaxation, the Club Olympus SPA is available to hotel guests.

An innovative gastronomical concept provides a diverse range of offerings. The Parkhuus restaurant, with an open show kitchen, produces truly delightful cuisine prepared with both simplicity and sophistication from products of the very finest quality. The ONYX bar fascinates with its open and unconventional design and the Lobby Lounge invites with its open fireplace, cozy armchairs and comfortable sofas to linger.
Hotel Florhof, Zurich

Hotel Florhof is an oasis of peace in the heart of Zurich. It is situated very close to the beautiful old town and the universities. The art gallery and the theatre are just around the corner. It’s no wonder that the Hotel Florhof has long been popular with its demanding international clientele, who treasure the personal atmosphere of this private hotel.

The Florhof is a hotel with history. A cityscape from 1576 shows its impressive facade. Yesterday a patrician house, today a modern boutique hotel, in which one feels at home from the start.

The 33 lovingly furnished rooms offer every comfort (such as voice mail and free high-speed internet). In addition, the Junior Suites are also fitted with air conditioning, CD und DVD players.

The hotel restaurant offers creative cuisine (14 Gault Millau points) in a cultivated setting. In the summer, guests can enjoy one of the most beautiful restaurant gardens in Zurich.

Welcome to the Hotel Florhof – we look forward to your visit!

Sheraton Neues Schloss Hotel Zurich

More than just a business hotel

This boutique hotel offers the optimal starting point for a leisurely shopping and sightseeing weekend in Zurich.

The Sheraton Neues Schloss Hotel Zurich, situated only a few meters from the Opera House, Zurich’s beautiful lake, the Bahnhofstrasse shopping district and the business district, is a peaceful oasis in the heart of the city.

With their large windows, the comfortable rooms are bathed in daylight and provide views of the greenery in our inner courtyard or of the splendid buildings of the city. With their elegant art deco design, the interior fittings in cherry wood add to the pleasantly refined atmosphere.

The “Le Jardin” restaurant is a popular rendezvous for gourmet diners. Executives like coming here for business lunches or a cozy dinner. Every week there are three new business lunch menus, each with two courses. In the summer, “Le Jardin” invites you to try its summer specialties such as its large salad platter with two kinds of dips and herb butter with the options of giant shrimps, beefsteak or vegetable kebabs. The restaurant offers its fine cuisine from Monday to Friday.

Visit the Sheraton Neues Schloss Hotel Zurich and experience for yourself our courteous personal service. General Manager Ronald Gangfuss and his team await you.

EMA House – The Zurich All Suite Hotel
As a traveler of taste, your time in Zurich is better spent in the kind of refined, personalized quarters that you and your companions associate with your own home, rather than in a traditional hotel. You may wish to receive your visitors in a prestigious setting – even challenge chef Paul Bocuse occasionally in the highly functional kitchen. And you could happily do without cleaning, shopping and other daily chores. If this describes you to a tee, EMA house – The Zurich All Suite Hotel is the place for you.

Newly built and opened in 1996, EMA house offers demanding and cosmopolitan guests both the amenities of a first-class hotel and the privacy of a home-away-from-home luxury suite, with every conceivable comfort and service.

Situated in a readily accessible, preferred yet quiet location in the heart of Zurich, we present you 30 refined and exclusive suites of various sizes. All suites come with an elegant salon including a functional working space, a sleeping area or a separate bedroom, a luxurious bathroom, and all except Junior Suites have a fully equipped kitchen. Individually adjustable air conditioning, cable TV, broadband internet access and other comfort, communication and security features are all included.

Baur Au Lac, Zurich
For generations, the Baur au Lac has been the top address for discerning travellers arriving in Switzerland's largest city from around the globe. In its own private park on the lake shore, with a unique location at the upper end of the Bahnhofstrasse shopping and financial district, the hotel is only minutes from most cultural and historical attractions. Kings and conquerors, presidents and prelates have bedded under its venerable roof. Famous artists regularly stay at the Baur au Lac, whose incomparable service has been setting the standard in the international hotel industry for more than 160 years.

Only recently, every room was thoroughly renovated, each one lovingly and uniquely crafted to combine superlative creature comforts with classical elegance and every conceivable technical convenience. Generously sized and luxurious marble bathrooms meet the highest modern demands of comfort, design and equipment.

A majestic view of Lake Zurich rewards all who visit the Fitness Club to limber up for the next day’s meeting or simply to get fit for fun.

Internationally renowned, the elegant Le Restaurant Français offers classic French dining and outstanding wines. Le Pavillon has romantic garden dining and the Rive Gauche Restaurant and Bar is Zurich’s most popular hot spot.
Hotel Palace, Lucerne

The Palace Lucerne is situated on the lake, in the heart of central Switzerland. Set within an idyllic alpine landscape, the Palace is just a five-minute walk away from the historic town centre. Generosity, hospitality and a century of hotel tradition make this a Leading Hotel of the World. The Palace Lucerne comprises 136 rooms and suites, many carefully restored in original belle époque style. Fine views extend over the shimmering waters of the lake to the city of Lucerne and the majestic mountainous world of Switzerland’s founding cantons. Several rooms have beautiful balconies or terraces. Wireless LAN (high speed internet) is installed in all rooms and the public area.

The new Palace Spa extends over 800 square meters. An oasis of relaxation and well-being awaits you, with individual programs combining traditional oriental treatments and selected western techniques. Enjoy the saunas, steam rooms, chic showers, ice fountains, relaxation room, and the finest fitness facilities. Experience lifestyle at its most luxurious!

Hotel Eden Au Lac, Zurich

The Hotel Eden au Lac comprises 50 rooms and suites. Standing next to the Opera House on the lakeside promenade, it is the grand five-star hotel just ten minutes’ walk from the famous Bahnhofstrasse. The magnificent facade is matched by both its interiors and its vast reputation.

The hotel opened in 1909 and blends tradition and personal service with contemporary sophistication, retaining the intimacy of a family hotel. It provides all the modern facilities and fittings commensurate with its world-class stature. Most rooms have beautiful balconies or terraces overlooking the lake, while those on the upper floors can see the city and the Alps beyond.

Wireless LAN (high speed internet) is installed in all rooms. The celebrated gastronomic restaurant, Eden, serves Mediterranean cuisine with fresh and organically grown ingredients and house classic specialities like “Hors d’Oeuvre Chaud”, invented here by Aga Khan III. The hotel is just a few steps away from the famous leading private clinic, the Pyramid Clinic.

Meticulous yet warm design features, exquisite materials and delicious cuisine are the hallmarks of the flamboyant, Mediterranean flair of the Jasper restaurant (awarded 16 Gault Millau points). The attractive Le Maritime garden restaurant, located directly on the picturesque promenade overlooking Lake Lucerne, serves a select range of delicious dishes. Sunshine by day and torchlight in the evening enhance the holiday atmosphere. This is a particularly popular attraction when combined with live piano music on your leisurely lake cruise. It is matched by the classic English ambience of the Palace Bar, open every evening for you to enjoy.
Victoria-Jungfrau Grand Hotel And Spa, Interlaken
In the heart of Switzerland, nestled between two lakes and at the foot of the eternally white Jungfrau, lies the Victoria-Jungfrau Grand Hotel and Spa. Style, elegance and the generous spirit of the good old days, combined with the luxury and comfort of today, add to the air of relaxed informality.

The unique Victoria-Jungfrau Spa has 5,500 square meters of facilities offering everything you need to promote a full recovery, improve your sense of well-being and revitalise the body. On request, you can also engage the professional services of a personal trainer, including fitness tests and medical checkups. The spa area includes a large-scale indoor pool, whirlpool and sauna, saltwater spa pool, Turkish steam bath, Finnish sauna and biosaunas with active light therapy, solarium and relaxation rooms.

Now this remarkable venue has been further enhanced with the inauguration of the ESPA. The extensive ESPA range of individualized treatments combines oriental therapies with selected western techniques, providing a totally caring experience in an ambience of sophistication and serenity.

Innovative, appetizing and colorful dishes based on the latest nutritional advice are all part of the Spa Cuisine. Careful preparation, a host of different foods and creative and deliciously light treats await your approval.

Gstaad Palace
Over the years the Gstaad Palace has earned an unrivalled reputation for discreet, refined hospitality, and has always welcomed the most discerning international clientele.

Set on a hill overlooking Gstaad, the resort offers a breathtaking view of the majestic Swiss Alps. The 104 tastefully decorated rooms include 29 junior suites, four suites, two Tower Suites and the most luxurious and sophisticated three-bedroom Penthouse Suite ever built in an Alpine resort. Enjoy traditional Swiss dishes, savory grill specialties, an exceptional Italian menu and exquisite gourmet cuisine at the hotel’s five superb restaurants. Unwind in the relaxed lobby bar, the stylish Bar du Grill or the famous GreenGo nightclub.

The Gstaad Palace also features a spa and health club spread on 1800sqm including eight treatment rooms, a private spa suite, saunas and steam bath, relaxation areas with incredible views, indoor pool and outdoor pool with jacuzzi, a state-of-the-art gym, a pilates studio and a unique hammam experience with seven rooms. A wide variety of activities is available near to the hotel such as golf, heli-skiing and hot-air-ballooning.

This elegant hotel offers guests a truly memorable stay in distinguished surroundings and a relaxing ambience, with over 250 employees dedicated to fulfilling your every wish.

**The “Les Trois Rois”, Basel**
The “Les Trois Rois” is one of the oldest hotels in Europe, as famous for its ancestry as for friendly hospitality. It reopened on March 20, 2006 after a full renovation and extension. Its 101 rooms and suites hark back to a time of extravagant luxury reflecting authentic period detail; it is carefully decorated with exquisite materials and offers the latest in-room technology to fulfil every need of a modern traveler.

Its location on the river Rhine in the city center is unique. Within walking distance are the University Hospital Basel, the exhibition center and shops, museums and theatres. Enjoy the different dining choices with breathtaking views on the river: The French gourmet restaurant Cheval Blanc with mouth-watering creations by one of Switzerland’s top chefs, Jean-Claude Wicky, also features an outstanding choice of rare and vintage wines. The Brasserie offers a relaxed atmosphere with traditional Swiss and French Brasserie fare throughout the day. Do not miss out on paying a visit to Basel’s epitome of Italian food culture, the Chez Donati.

The hotel’s magnificent ballroom, the Salle Belle Époque, and its salons provide the ideal venue for every event, from small boardroom meetings to large conferences or unforgettable social celebrations. All meeting rooms have natural daylight and are equipped with cutting edge technology. Some of them have fabulous river views.

The “Les Trois Rois” is a member of the Leading Hotels of the World and Swiss Deluxe Hotels. Sophisticated individualists feel every bit at home here, as do celebrities from all over the world.

We make you feel special.
Welcome to “Les Trois Rois”.
