

Medical Treatment in Switzerland

We Take You Where They Care

Medical Treatment In Switzerland

You are considering a Swiss hospital for your medical treatment or recovery from an illness or surgical procedure.

You may have questions such as:

- In which hospital am I in the best hands?
- Who are the experts in my condition?
- How will I communicate with the experts?
- When can I start the treatment?
- How long will it take?
- Where is a suitable hotel for my relatives?
- How do I get to the hospital?
- How much will my stay in Switzerland cost?

This leaflet will answer some of your questions. For the rest, simply contact us. We will be delighted to help you.

The Swiss Healthcare System

Nestled in the heart of Europe, Switzerland boasts one of the best healthcare systems. Switzerland has a reputation throughout the world for its high standard of medical care.

The advantages of the Swiss health system undoubtedly stem from the highly qualified doctors and nursing staff, excellent medical care and the modern, well-equipped and accessible high-tech hospitals.

Swiss cultural traditions also have a strong positive influence: precision, reliability, willingness to serve and discretion all combine to make Swiss hospitals world-class health providers.

We Take You Where They Care

Your Health Is Our Concern

We have a proven track record in delivering individually tailored healthcare solutions that fully meet patients' needs. We provide:

- Medical check-ups
- Diagnosis
- Treatment
- Rehabilitation
- Second opinions

The work of Swiss hospitals and healthcare professionals is based on strong core values: medical and academic excellence, competent and comprehensive care, modern infrastructure and organisational efficiency.

Costs For Medical Care

Medical treatment in Switzerland requires either international private health insurance covering treatment carried out abroad, state coverage, or the ability to finance the treatment costs yourself.

Together with your treatment plan you will receive a cost estimation. Please note that we require prepayment. After your stay you will receive a detailed cost summary with invoices from the hospitals.

SWIXMED provides full patient support during your stay, wherever needed. You can take advantage of the various SWIXMED services provided by a representative of our Guest Relations Department.

You Can Rely On Us

At SWIXMED we are always mindful of the responsibility we have to you, our customer. The entire organisation is committed to professionalism, confidentiality and reliability in partnership with our guests.

Discretion is at the heart of our business. We will ensure that your data is protected in accordance with Swiss legal requirements.

As an independent company, we are obliged only to our clients and not to a particular hospital. At SWIXMED, our patients come first. One thing is certain: You can rely on us.
